## What are your favorite baby essentials?

Gia Russo  
Editorial Director

create a super sleeper

keeps baby warm at night

cute and cozy

cucumber and lavender wash

teething relief

this changing mat keeps baby secure

genius! a spoon that dispenses baby food

perfect for on the go feeding

### Gadgets

A gummy stick is a nifty gadget to help baby during the teething process. [This massager](#) is easy for a baby to hold and offers a soft, textured tip to soothe baby's gum. - Michele

[Soft Gear Deluxe Changing Mat](#) allows you to safely and comfortably change your baby's diaper. With its raised sides, your baby fits snugly in this cushioned, non-absorbent changer. I love that it's lightweight, transportable and easy to clean. Two Lucky Moms will win this changing mat today by joining the convo here and becoming a [Soft Gear Facebook Fan](#). The winners will be announced at 4:00 PM PST. - Gia
